ENVIRONMENT

A facility for women and children provides services, a safe space and opportunities. This space is supportive of recovery and stabilization, especially for new mothers. Providing healthcare access, shelter, child care, job opportunities and subsidized housing, this center fosters hope, happiness and well-being. It includes certified, culturally specific birthwork and community health work: doula, breastfeeding, nutrition, gardening, cooking classes, life skills, financial literacy, entrepreneurship, adult education, parenting classes, restorative justice and facilitation.

- 01 Safe and accessible child care to support all mothers
- 02 Classes focusing on well-being and health
- 03 Safe environments for children to play, interact and grow
- 04 Healing environments for recovery and stabilization
